MONITORING SENTIMENT FOR DOMESTIC AND INTRA-EUROPEAN TRAVEL

WAVE 5 | 02/21
This report monitors sentiment and short-term intentions for domestic and intra-regional travel within Europe and is the fifth out of six waves of market research, initiated in September 2020. Responses are collected from European citizens from 10 high-volume source markets in light of the COVID-19 crisis.

• For a second consecutive period, Europeans’ travel sentiment for domestic and intra-European trips is recovering; 54% of respondents consider travelling in the coming 6 months\(^1\) compared to 52% in wave 4.

• Although only 12% of respondents are willing to travel up to the end of March 2021, the outlook for spring and summer 2021 remains positive; 34% of Europeans intend to plan a trip between May and July 2021.

• Respondents’ desire for intra-European travel is also building steadily; 41% now plan to travel to another European country, the highest figure since this series of surveys began. Another 35% prefer to stay in their own country for their next trip.

\(^1\) Between January and July 2021
WAVE 5
RESEARCH HIGHLIGHTS

- Leisure remains the primary reason to travel for 64% of respondents with short-term plans.
- As Europeans are now eyeing the spring and summer season, they show a greater interest in sun & beach vacations (18%) and slightly less in visiting city destinations (16%). Culture and heritage trips are still popular for 14% of early-bird travellers.\(^1\)
- Consumer sentiment towards air travel also shows signs of improvement; 54% of respondents state that they are willing to travel by plane, the highest number since the research began. At the same time, only 16% of Europeans now see flying as a health risk, down 20% from wave 1.
- Travelling by car remains the 2\(^{nd}\) most preferred transportation option for 36% of early-bird travellers.

\(^1\)“Early-bird” travellers refers to survey respondents that are most likely to travel in the next 6 months
WAVE 5
RESEARCH HIGHLIGHTS

• Spain, Italy, France, Greece and Germany are the five most popular European countries to visit, and this ranking remains unchanged compared to wave 4.
• Respondents continue to show a clear preference for digital sources, either for trip planning or booking; Travel review websites (17%) and online booking engines (44%) continue to head their respective lists.
• Simultaneously, service providers’ websites are increasingly popular when planning and booking for 12% and 29% of Europeans, respectively.
• Destinations’ websites and social media pages are also preferred by 13% of respondents when planning trips.
WAVE 5
RESEARCH HIGHLIGHTS

• Asked which travel quality\(^1\) is most important for trips this year, the highest percentage (24%) of Europeans still put Health and safety first. Sustainability is selected by 5% of respondents and is for the first time among the top six.

• As in all previous research waves, the rollout of the COVID-19 vaccine remains the key factor for travel decision-making among 11% of respondents, now sharing first place with “a destinations’ effectiveness in managing COVID-19”. A pre-travel COVID-19 test requirement comes a close third, with 10% of respondents selecting this option.

• The possibility of being quarantined during a trip (16%) followed by rising COVID-19 cases (14%) and getting ill (13%) continue to be the prevalent travel concerns for early-bird travellers. Economic factors are currently of minor importance.

• The strict Health and Safety protocols in destinations are critical for having a safer and more relaxed holiday experience, according to 69% of Europeans with short-term travel plans. On the contrary, 21% of respondents claim that the protocols may spoil the travel experience, while 10% say it makes no difference.

\(^1\) The term “Travel Qualities” refers to the nature, traits and characteristics of the travel experience sought by consumers.
WAVE 5
INSIGHTS ON TRAVELLERS’ ONLINE SENTIMENT

The report is also complemented by insights on travellers’ online sentiment for major European destinations for the period of December 2020 compared to December 2019.¹

• A third of all travel social media mentions are made by the 35-44 age group - the same age group that is also most likely to travel according to the results of wave 5.
• In December 2020, the Tourism Product Index² - measuring tourists’ satisfaction with the offering of European destinations - fell by 14% compared to December 2019 to 56%. This figure is even closer to the 50% threshold below which visitor satisfaction is considered low. Deteriorated sentiment might result from the lockdowns and the decline in the destination tourism offering.
• The Hotel Satisfaction Index² during December 2020 was 66%, indicating a good level of satisfaction with accommodation in destinations. The December 2020 index was 3% above December 2019.

¹Benchmark report for major European destinations, December 2020 compared to December 2019 (Mabrian Technologies, January 2021)
²Tourist Product/Hotel Satisfaction Indexes, measure satisfaction levels of visitors to a destination with its offering lands & culture, food & cuisine, sunbathing, etc & accommodation respectively. For more info on methodology and scoring system please refer to slide 48
WAVE 5
RECOMMENDATIONS FOR DESTINATIONS

• Given the importance of a COVID-19 vaccine for travel decision-making, destinations should monitor vaccine rollout in **source market countries** and target those prioritised groups who have already received it (i.e. **mature travellers**).

• Increasing confidence in air travel should prompt destination authorities to **extend their marketing efforts to medium-haul markets and to source countries more dependent on flights**, while developing synergies with airlines and hotels for co-branded **marketing campaigns** (destination partnerships).

• As Europeans are concerned about their personal health throughout their in-destination experience, NTBs and DMOs should deploy reassurance campaigns covering equally transport, attractions, restaurant and cafes as well as accommodation.

• With the 35-44 age group more likely to travel, destinations should highlight **family-friendly elements**, such as parks and open spaces where families can spend time in a COVID-19-safe manner. NTBs and DMOs\(^1\) could also promote on their destination websites tourism routes that are worth exploring by car.

\(^1\) NTBs: National Tourism Boards – DMOs: Destination Marketing Organizations
WAVE 5
RECOMMENDATIONS FOR BUSINESSES

• With senior citizens across Europe a high priority for vaccination and the 55+ age group more positive about travel, businesses and travel agents should target this age group and promote appropriate products (such as culture and heritage), with a strong emphasis on health and safety.
• With over a third of respondents planning to travel in May-July 2021, businesses should start with the preparation and promotion of sun & beach and city break experiences. However, as many Europeans remain uncertain about the feasibility of their travel plans, flexible booking terms and convenient cancellation policies are a must-have.
• Service providers may extend flexibility beyond cancellation policies, in payment terms; through installments, subscription models, tokens for Food and Beverage outlets or extra discounts for digital Word of Mouth reference.
• In view of fears for virus transmission in restaurants and cafes, owners should gain travellers’ confidence with strict implementation of health and safety protocols and flag any measures in their promotion campaigns.

Wave 5

1. Dates on the graphs refer to the following data collection periods for each research wave:

<table>
<thead>
<tr>
<th>Wave</th>
<th>Dates</th>
</tr>
</thead>
<tbody>
<tr>
<td>1</td>
<td>27 Aug – 15 Sep '20</td>
</tr>
<tr>
<td>2</td>
<td>21 Sep – 9 Oct '20</td>
</tr>
<tr>
<td>3</td>
<td>19 Oct – 6 Nov '20</td>
</tr>
<tr>
<td>4</td>
<td>20 Nov – 3 Dec '20</td>
</tr>
<tr>
<td>5</td>
<td>18 Dec ‘20 – 7 Jan ‘21</td>
</tr>
</tbody>
</table>

2. To present Wave 5 timings in which respondents are most likely to take their next trip, the following time periods should be used as a reference:

- This month; December 2020 – January 2021.
- In 1-2 months; January – March 2021.
- In 3-4 months; March – May 2021.
- In 5-6 months; May – July 2021.

3. To present data and insights, the following distinct groups have been analysed:

- Total respondents; 5,855
- Respondents with short-term travel plans/ most likely to travel in the next 6 months ["early-bird travellers"]; 3,182 (in specific questions the sample size was reduced to 3,181/3,180 due to missing values)
- Respondents selecting outbound European destinations; 4,215

4. Only significant changes between current and previous waves are shown; Significant changes refer to >2.5% for the total sample and >5% for the smaller samples, in absolute numbers. To indicate these changes, the following symbols were used:

- Increasing ▲, decreasing ▼
- Numbers next to the arrows reflect the percentage of change in the share of respondents selecting a specific response between current and previous waves

5. When mention of new COVID-19 cases is made, it refers to the data collection period.

6. All data and insights refer to domestic and intra-European travel, unless otherwise stated.
TRAVEL INTENTIONS
Travel intentions improve gradually: 54% of surveyed Europeans eager to take a trip by the end of July 2021

Top 5 markets which are most likely to travel in the next 6 months

- **Poland**: 80.2% (8%)
- **Belgium**: 55.3% (16%)
- **Italy**: 60.7% (13%)
- **Spain**: 51.8%
- **Austria**: 55.4% (7%)

Intention to travel in the next 6 months

- Aug.-Sep. 20 survey: Likely/Very Likely, 53.5%; Neutral, 18.3%; Unlikely/Very Unlikely, 28.1%
- Sep.-Oct. 20 survey: Likely/Very Likely, 53.6%; Neutral, 18.5%; Unlikely/Very Unlikely, 27.9%
- Oct.-Nov. 20 survey: Likely/Very Likely, 49.4%; Neutral, 19.2%; Unlikely/Very Unlikely, 31.4%
- Nov.-Dec. 20 survey: Likely/Very Likely, 52.1%; Neutral, 19.6%; Unlikely/Very Unlikely, 28.3%
- Dec. 20 - Jan. 21 survey: Likely/Very Likely, 54.4%; Neutral, 18.8%; Unlikely/Very Unlikely, 26.7%

Q7. Do you plan to take an overnight trip domestically or within Europe in the next 6 months, either for personal or professional purposes?

No. of respondents: 5,855
While respondents between 35 and 44 are currently the keenest to travel, older age groups show increasing interest due to vaccine rollout.

50% of respondents aged 55 and above are likely/very likely to resume travel as a result of COVID-19 vaccine vs. 34% among the 18-24 age group.

Intention to travel in the next 6 months by age group

Q7. Do you plan to take an overnight trip domestically or within Europe in the next 6 months, either for personal or professional purposes?

No. of respondents: 5,855
With the warmer months approaching, the share of respondents mostly interested in sun and beach experiences slightly increases, while there is somewhat decreased interest in city breaks.

07. Do you plan to take an overnight trip domestically or within Europe in the next 6 months, either for personal or professional purposes?

No. of respondents: 3,181
Europeans increasingly aim to travel abroad with the majority considering a trip no earlier than March 2021

When will Europeans travel next?

Please use this map as a reference only

* No significant changes between waves were recorded for this question

No. of respondents: 4,215

Q11. To which country[ies] do you plan to travel next?
Leisure remains the primary purpose of trips while business travel, although below its pre-pandemic benchmark*, appears resilient.

* 13% [UNWTO, 2019]

Q8. For what reason are you most likely to travel within Europe next?
Sun and beach experiences gain interest with many Europeans planning to resume travel in early summer

Preferred type of leisure trip for respondents most likely to travel in the next 6 months

- **18.1%** Sun & Beach
- **13.2%** Coast & Sea
- **13.5%** Culture & Heritage
- **4.7%** Touring & Road Trip
- **12.5%** Nature & Outdoors
- **3.9%** Ski/Snowboard Trip in the Mountains
- **15.8%** City Break
- **9.8%** Wellness & Relaxation

Dec ’20 – Jan ’21 survey

Culture and Heritage trips as well as wellness and relaxation show the lowest seasonality among all types of leisure trips

* No significant changes between waves were recorded for this question

Q17. What type of leisure trip within Europe are you most likely to undertake next?

No. of respondents: 3,180
As source countries maintain consistent preferences for specific tourism products, DMOs can draft long-term strategies aimed at penetrating specific markets.

Dec '20 – Jan '21 survey

Compared to people wishing to travel with a partner, solo travellers are more likely to take a business (9% vs. 2%) or bleisure trip (14% vs 4%)

* No significant changes between waves were recorded for this question

Q16. With whom are you most likely to travel during your next trip within Europe?

No. of respondents: 3,182
Digital touchpoints are increasingly popular – hotels’ websites and social media pages now climb to 3rd place among the preferred information sources for travel planning.

Top 10 preferred sources of information for respondents most likely to travel in the next 6 months:

- **Travel review websites**: 17.4%
- **Destination website or social media**: 13.1%
- **A hotel website or social media**: 11.5%
- **Recommendations from friends**: 11.2%
- **Travel agent/ tour operator**: 11.2%
- **An airline website or social media**: 9.8%
- **An online travel video on YouTube, Facebook, etc.**: 7.3%
- **Digital content from someone followed on Social Media**: 5.2%
- **Newspaper/ magazine articles**: 4.9%
- **A travel show on television/ OnDemand/ podcast**: 3.1%

*No significant changes between waves were recorded for this question.

Q12. What sources of information will you use the most when planning your next trip?
Digital channels dominate when it comes to bookings, though travel agents/designers are more popular among mature Europeans

- 8.8% Package holiday through a Tour Operator
- 12.9% Travel agent/travel designer
- 28.7% Direct booking via accommodation/airline website

31% of those relying on travel agents are over the age of 55, while the percentage of younger people (18-24 or 25-34) that would select this service is just 15%

City-life enthusiasts are more likely to book through Online Booking Engines than Sun and Beach lovers (48% vs 40%)

* No significant changes between waves were recorded for this question

Q13. How will you book your next trip within Europe?

NB: Sampling carried out through online survey thus it may contain bias towards digital usage
No. of respondents: 3,182
Consumers’ preference for air travel is slowly taking off, providing a positive signal for the recovery of international tourism.

Top 5 markets which are most likely to travel by plane in the next 6 months:

- **Spain**: 69.9%
- **UK**: 61.4% (with a 8% increase)
- **Poland**: 52.3%
- **Italy**: 65.9%

Q3. Which factors are currently most important to you to travel within Europe?

No. of respondents: 5,855
Europeans are now equally worried about COVID-19 case spikes at the destination and quarantine measure coming into effect during a trip.

Leading concerns for travelling in Europe:

- **15.0%**  
  Quarantine measures during my trip

- **13.5%**  
  Becoming ill at the destination

- **9.5%**  
  Changes in travel restrictions to and from my country during my trip

- **6.9%**  
  Booking and cancellation policies

- **14.9%**  
  Rising COVID-19 cases in the destinations I want to visit

- **10.0%**  
  Becoming ill in transit

- **8.3%**  
  Limited options at the destination (closed restaurants/bars, etc.)

- **5.8%**  
  Transport and accommodation safety measures

*No significant changes between waves were recorded for this question.

Q4. What currently concerns you the most about travelling within Europe?

No. of respondents: 5,855
TRAVEL CONCERNS OF "EARLY-BIRD" TRAVELLERS

Respondents most likely to travel in the next 6 months are still anxious about facing quarantines during their trip

Leading concerns for those who are most likely to travel next

- **15.7%** Quarantine measures during my trip
- **12.7%** Becoming ill at the destination
- **9.2%** Becoming ill in transit
- **5.8%** Transport and accommodation safety measures
- **14.1%** Rising COVID-19 cases in the destinations I want to visit
- **10.5%** Changes in travel restrictions to and from my country during my trip
- **9.0%** Limited options at the destination (closed restaurants/bars, etc.)
- **7.2%** Booking and cancellation policies

*No significant changes between waves were recorded for this question.
Q4. What currently concerns you the most about travelling within Europe?

No. of respondents: 3,182
Healthwise, Europeans continue to perceive the use of public transportation to and within a destination the riskiest part of a journey.

The most worrisome touch points during travel in relation to personal health & safety (Top 5)

Air travel
In destination transport (metro, bus, taxi)
Attractions, tours and activities (i.e., museums, theme parks)
Public areas in destinations (i.e., streets, neighborhoods)
Accommodation – hotels and resorts
Food & beverage

Dec ’20 – Jan ’21 survey

The level of concern regarding personal health & safety while staying at a hotel increases with age: 29% of respondents over 55 choose accommodation as their top 3 points of concern vs. 21% among the 18-24 age group.
STRICT PROTOCOLS BRING THE PEACE OF MIND TO PROPERLY ENJOY A TRIP:

Strict health and safety protocols in the destination are welcomed by over two-thirds of “early bird” travellers.

I feel much safer, knowing that my health is a top concern for the destination

I feel more relaxed to enjoy my stay

It does not make any difference to me

I feel I cannot enjoy everything that a place has to offer

I feel that strict protocols can damage the joy of travelling

71% of those planning a domestic trip view strict health and safety protocols in a positive light, vs. 65% of those planning to travel outside of Europe.

Notes:
• Q18. Please select a response which describes you the most:
  “When I travel to places with strict health and safety protocols...
• Refers to survey respondents that are most likely to travel by the end of July 2021, n = 3,181
• Data was collected between 18/12/2020 - 7/1/2021
THE UNCERTAINTY CONTROL PANEL

4 KPIs illustrating the level of uncertainty for domestic and intra-European travel

9.5% of respondents consider flexible cancellation policies as an important factor in travel decision-making

6.9% of respondents position booking and cancellation policies as one of the main concerns related to travelling

34.7% of respondents state that they do not know when they will travel next

10.7% of respondents state that they do not know where they intend to travel to in the next 6 months
METHODOLOGICAL ANNEX
METHODOLOGICAL ANNEX

THE SURVEY

- Online market research. Survey participants are consumers with at least 2 overnight trips in 2019.
- Distribution/data collection period:
  - **Wave 1**: 27 August 2020 – 15 September 2020; sample = 5,762/
  - **Wave 2**: 21 September 2020 – 9 October 2020; sample = 5,876/
  - **Wave 3**: 19 October 2020 – 6 November 2020; sample = 5,832/
  - **Wave 4**: 20 November 2020 – 3 December 2020; sample = 5,742/
  - **Wave 5**: 18 December 2020 – 7 January 2021; sample = 5,855
- Countries: Germany, United Kingdom, France, Netherlands, Italy, Belgium, Switzerland, Spain, Poland and Austria
- Languages: English, French, German, Italian, Spanish, Polish and Dutch
- Research themes examined: Travel personas (1 question), Travel concerns and COVID-19 impact on travel (6 questions), Travel intentions, preferences and trip planning (10 questions), COVID-19 and responsible travel (3 questions).
- Q6 “To what extent do you agree/disagree with the following statement: when a treatment/vaccine for COVID-19 is found, I will immediately book or reschedule the trip I had planned pre-COVID 19” was removed from the analysis of wave 5 and will reappear in wave 6 in a revised version considering developments in vaccine rollout.
- Wave 5: 53% of respondents are male and 47% are female. Number of respondents and age group per source country:

METHODOLOGICAL ANNEX
TRAVELLERS’ ONLINE SENTIMENT

- **Objective**: Benchmark major European tourism destinations in terms of tourist satisfaction and interests based on social media mentions.
- **Destinations**: United Kingdom, France, Netherlands, Croatia, Belgium, Germany, Italy, Greece, Portugal and Spain.
- **Origin markets**: Germany, United Kingdom, France, Spain, Italy, Switzerland, Belgium, Netherlands, Poland and Austria.
- The following indicators are analysed:
  - **TPI** > The Tourist Products Index, measures the level of satisfaction with the offer (products) of the destination in its various categories: Arts & Culture, Gastronomy, Sunbathing, etc. This index is obtained by analysing the distribution of positive, negative and neutral comments on Twitter and TripAdvisor.
  - **HIS** > The Hotel Satisfaction Index, measures the level of visitor satisfaction with the entire accommodation sector of a destination based on relevant comments that guests make on TripAdvisor, Expedia and Booking.
- Indexes are calculated by using advanced Natural Language Processing, Artificial Intelligence and Machine Learning techniques to analyse millions of spontaneous tourist interactions on social media or reviews sites.
- **Index scoring system**: The calculated indices show values between 0 and 100 points as follow:
  - 0 to 24 points: Very low levels of satisfaction and confidence and therefore a priority area for reconfiguration.
  - 25 to 49 points: Relatively low level of satisfaction and confidence. Considerable potential for improvement.
  - 50 to 74 points: Good to very good satisfaction level. Moderate potential for improvement.
  - 75 to 100 points: Excellent satisfaction and confidence levels. In some cases there are margins for improvement, although most of them constitute levels to maintain and consolidate.

For a more detailed description about the specific indices please visit the following [link](#).
